

OPTI•FLOR SPECIAL COLLECTION

MyMonro

The MyMonro Collection represents an abundance of flowers. Beautiful large flowers on graceful, compact stems. Each flower seems to want to be on the forefront on her own way. Addicted to attention as they are, they almost try to entice their environment voluptuously and desirably. The MyMonro Collection is temptation to the square. For which one are you falling?

MYMONRO TRAY BOX PINK

OPTI•FLOR SPECIAL COLLECTION

MyMonro

The grower history of the Hendriks family goes back in time nearly 100 years. The family business, founded in 1928, has a long tradition with the growing and cultivation of natural products. Optimum quality is the main pursuit and we aim to raise the bar a little higher each day, creativity plays a major role in this. Innovative types of phalaenopsis and creations are continuously being sought after, it is in our genes, we don't say Creating Orchids for a reason.
