

Responsibly Produced Peat - Registration Agreement

The Responsibly Produced Peat registration form has two functions:

- A. For companies, organisations and persons that support Responsibly Produced Peat;
- B. The route to **Certification** for Responsibly Produced Peat and the **Chain of Custody**, that starts with registration of the following companies or persons:
 - 1. **a producer of peat with RPP-certified site(s)** -or starting the route to RPP-certification;
 - 2. **a producer of peat not certified for RPP.**

The company may supply non-certified peat to RPP-registered growing media producers, under the condition that the company works in compliance with the requirements of Chapter 1, Legality, of the RPP certification scheme; This scheme can be found on the website.

Alternatively a producer of non-certified peat may choose to sign a RPP due diligence agreement.

- 3. **a company forwarding and/or selling RPP-certified peat** under their own name;
- 4. **a producer of growing media** marketing their product with the RPP-label;

Growing media producers that want to market their product with the RPP label need to indicate the option they want to use in the mass balance system (see no. 8 in table next page)

The complete Chain of custody registration procedure is explained in the actual RPP certification scheme. If you have any questions, or need additional information, please contact:
