Decision on certification		
<p>Secretariat</p> <p>Six weeks period for comment</p>	<p>21. Secretariat sends a notification about the intended decision for certification of the <i>company and peat bog</i> to defined stakeholders (standard list) including the CoE. The intended decision is also put on the RPP website.</p>	<p>During 6 weeks the intended decision for certification is available for information and objection by relevant stakeholders.</p>
	<p>a) No comments are received from relevant stakeholders.</p>	<p>Max. 3 weeks after comment period the secretariat notifies company, inspector, CoE and Board.</p>
	<p>b) In case comments by relevant stakeholders give reason to define (new) <i>major</i> non-conformities, the intended decision for certification will be put on hold until the requirements are met.</p> <p><i>When needed the CoE can be involved for interpretation and advice*.</i></p>	<p>The secretariat answers within 3 weeks to objecting party and the company, and informs the inspector, the CoE and the Board.</p>
<p>Secretariat</p>	<p>V. Final decision on certification</p> <p>22. The secretariat notifies company, CoE and Board that requirements for certification are fulfilled.</p> <p>23. The secretariat issues the certificate and a certification report to company</p> <p>24. Secretariat publishes certified company and peat bog on RPP website and periodically evaluates the certification procedure with the CoE.</p>	

Follow-up certification

After initial certification, the following procedures will be followed:

1. A yearly up-date by means of a self-declaration of the company regarding
 - a. legality and governance.
 - b. possible minor non conformities that need to be settled.
 - c. Results of possible monitoring requirements.
 - d. Other relevant changes concerning company or peat bog.

A 5-yearly inspection of certified production sites and other obligations;

After-use

After production has ceased (location abandoned), the after-use phase starts. The company will supply periodical information to the Foundation on results of implementing the after-use. The progress in the fulfilment of the after-use plan will be published on the website of Responsibly Produced Peat (public accountability).

When company believes it has complied with the after-use obligation;

1. the company will inform the secretariat with substantiated arguments (confirmed by stakeholders).
2. depending on the situation, desk- or site inspection will take place to confirm if the after-use obligations have been met.

* Committee of Experts: evaluation of information

1. CoE can be asked to evaluate documents and formulate advice to the Certification Body
 1. Bernd Hofer
 2. Ron Bleijswijk
 3. Sabine Jordan
 4. Silke Kumar
 5. Nerijus Zableckis
2. CoE evaluates data and does its utmost to formulate an unanimous decision or advise. An advice requires approval of at least 2/3 of the members present. When necessary, the secretariat arranges a meeting or conference call.
